BOND NO. 106923132

RIDER TO CONTRACTOR'S PERFORMANCE AND PAYMENT BOND

This Rider supplements Contractor's Performance and Payment Bond ("Bond") on that certain contract with the City of Chicago ("City") bearing Contract No. 78020 and Specification No. 565229 ("Contract"). Surety acknowledges that the Contract requires Contractor to obtain from each of its subcontractors consent to a collateral assignment of their contracts with Contractor to the City. The Contract further grants the City the right, upon Contractor's default for failure to comply with Chapter 4-36 of the Municipal Code of the City, and at the City's sole option, to take over and complete the work to be performed by Contractor through the City's assumption of some or all of Contractor's subcontracts. If the City, in its sole discretion, exercises this right, then Surety waives any rights it may have to cure Contractor's default by performing the work itself or through others and remains bound by its other obligations under the Bond.

Contractor must submit evidence of insurance prior to execution of Contract. The receipt of any certificate does not constitute agreement by the City that the insurance requirements in the Contract have been fully met or that the insurance policies indicated on the certificate are in compliance with all requirements of Contract. The failure of the City to obtain, nor the City's receipt of, or failure to object to a non-complying insurance certificate, endorsement or other insurance evidence from Contractor, its insurance broker(s) and/or insurer(s) will not be construed as a waiver by the City of any of the required insurance provisions. Contractor must advise all insurers of the Contract provisions regarding insurance. The City in no way warrants that the insurance required herein is sufficient to protect Contractor for liabilities which may arise from or relate to the Contract. The City reserves the right to obtain complete, certified copies of any required insurance policies at any time.

SPECIFICATION NO.: 565229**

Failure to Maintain Insurance. Failure of the Contractor to comply with required coverage and terms and conditions outlined herein will not limit Contractor's liability or responsibility nor does it relieve Contractor of its obligation to provide insurance as specified in this Contract. Nonfulfillment of the insurance conditions may constitute a violation of the Contract, and the City retains the right to suspend this Contract until proper evidence of insurance is provided, or the Contract may be terminated.

Notice of Material Change, Cancellation or Non-Renewal. Contractor must provide for sixty (60) days prior written notice to be given to the City in the event coverage is substantially changed, canceled or non-renewed and ten (10) days prior written notice for non-payment of premium.

Deductibles and Self-Insured Retentions. Any deductibles or self-insured retentions on referenced insurance coverages must be borne by Contractor.

Waiver of Subrogation. Contractor hereby waives its rights and its insurer(s)' rights of and agrees to require their insurers to waive their rights of subrogation against the City under all required insurance herein for any loss arising from or relating to this Contract. Contractor agrees to obtain any endorsement that may be necessary to affect this waiver of subrogation, but this provision applies regardless of whether or not the City received a waiver of subrogation endorsement for Contractor's insurer(s).

Contractors Insurance Primary. All insurance required of Contractor under this Contract shall be endorsed to state that Contractor's insurance policy is primary and not contributory with any insurance carrier by the City.

No Limitation as to Contractor's Liabilities. The coverages and limits furnished by Contractor in no way limit the Contractor's liabilities and responsibilities specified within the Contract or by law.

No Contribution by City. Any insurance or self-insurance programs maintained by the City do not contribute with insurance provided by Contractor under this Contract.

Insurance not Limited by Indemnification. The required insurance to be carried is not limited by any limitations expressed in the indemnification language in this Contract or any limitation placed on the indemnity in this Contract given as a matter of law.

Insurance and Limits Maintained. If Contractor maintains higher limits and/or broader coverage than the minimums shown herein, the City requires and shall be entitled the higher limits and/or broader coverage maintained by Contractor. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the City.

Joint Venture or Limited Liability Company. If Contractor is a joint venture or limited liability company, the insurance policies must name the joint venture or limited liability company as a named insured.

Other Insurance obtained by Contractor. If Contractor desires additional coverages, the Contractor will be responsible for the acquisition and cost.

PROPOSAL PAGES

PROPOSAL

The undersigned proposes to construct the

**ARTERIAL STREET RESURFACING
NORTH AREA - PROJECT NO. 79
C.D.O.T. PROJECT NO.: B-4-152
SPECIFICATION NO.: 565229**

as required by this Contract, to perform all Work required, and to provide and furnish the required performance and payment bond and all of the labor, materials tools, equipment (expendable and otherwise), accessories and transportation services necessary to perform and complete the Work required, in a workmanlike manner and within the specified time, all in accordance with the Contract Documents, at the unit and lump sum prices set forth in the Schedule of Prices.

In connection with this proposal, the Bidder represents and warrants:

- Bidder must meet equipment requirements for Illinois Department of Transportation (IDOT) Prequalification in Work Category 3 – Hot Mix Asphalt (HMA) Plant Mix, according to IDOT's RULES FOR PREQUALIFICATION OF CONTRACTORS, AUTHORIZATION TO BID, AND SUBCONTRACTOR REGISTRATION amended APRIL 25, 2016.
- Bidder will furnish a performance and payment bond in the required form and with sureties satisfactory to the City of Chicago within 7 calendar days after Bidder receives written notice that the City has accepted its proposal;
- Bidder has carefully examined the Contract Documents, Addenda (if any), and Exhibits on file at the Department of Transportation; inspected in detail the site of the proposed Work; familiarized itself with all of the conditions affecting the Contract, the Work to be done, and the conditions under which it must be carried out; and understands that in making its proposal it waives all rights to plead any misunderstanding regarding these matters;
- Bidder has completed and signed the "Economic Disclosure Statement" form and all other forms requiring Bidder's authorized signature;
- Bidder is ready, willing and able to undertake the Project and is prepared to and will provide documentation as outlined in Article 6 of the Requirements for Bidding and Instructions to Bidders entitled "Competency of the Bidder" to the satisfaction of the Chief Procurement Officer in her sole judgment, relating to Bidder's experience and performance ability and possession of necessary facilities, financial resources, and insurance, all for such a Project;
- Bidder or any of its officers is not barred from contracting with any unit of state or local government as a result of violations of law prohibiting bid-rigging or bid-rotating;
- Bidder understands that Bidder's Schedule of Prices must show the unit or lump sum price, as the case may be, for which Bidder proposes to perform each item of Work; that all extensions and the summation for the Total Base Bid must be made by Bidder, and that if not so made, Bidder's proposal may be rejected as irregular; and

- Bidder's price stated for each item of Work is based on the projected cost of that item at the time the Work is performed and includes a proportionate amount of the total cost for full compliance with the Contract Documents and with all applicable laws, ordinances, regulations, and codes of federal, state, and local governments having jurisdiction, and constitutes compensation in full for performing and completing the Work pertaining to that item, free of all claims and charges whatsoever.

NOTE: THE BIDDER SHOULD NOT ADD ANY CONDITIONS OR QUALIFYING STATEMENTS TO HIS PROPOSAL, AS SUCH ADDITIONS MAY CAUSE THE PROPOSAL TO BE DECLARED INFORMAL AND NOT RESPONSIVE TO THE REQUEST FOR BIDS.

TIME OF COMPLETION

It is understood and agreed that TIME IS OF THE ESSENCE IN THIS CONTRACT, and the Contractor agrees to begin actual work covered by this Contract after notification by the Commissioner to commence work and to prosecute the same with all due diligence so as to complete the entire work under the Contract by **December 31, 2018**. It is understood that "Completion" will mean completion to the point of acceptance by the Commissioner, i.e. substantial completion/beneficial occupancy.

The Contractor may prosecute the work through two shifts each working day if he deems such action necessary in order to complete the work within the specified time period. However, no work will be permitted between the hours of 9:00 p.m. and 8:00 a.m. Any variation from these restricted working hours to include extended shift hours and daytime work, if any, can only be permitted with the written approval of the Commissioner.

In the event that progress falls behind the approved schedule, work must proceed on a twenty-four (24) hour per day basis without additional compensation, if so ordered by the Commissioner, to comply with the requirements of this Section.

PUNCH LIST TIME OF COMPLETION

It is also understood and agreed that TIME IS OF THE ESSENCE IN CLOSING OUT THE JOB SITE WORK OF THIS CONTRACT, and the Contractor agrees to begin work immediately after receipt of formal comprehensive list of minor miscellaneous or finishing work also known as "Punch List" work.

Further, upon physical completion of the Work and final inspection of same, a final "Punch List" will be transmitted to the Contractor from the Commissioner. This final "Punch List" will consist of not only physical work items requiring corrective action, but will also include all applicable Contractor submittals as may be required by the Contract. It is understood and agreed that **all** final "Punch List" work will be prosecuted expeditiously and completed, in total, within thirty (30) calendar days of the date of the transmittal to the Contractor. Failure to complete **all** final "Punch List" items within the thirty (30) calendar day time limit shall be construed as failure to prosecute work of the contract and, as such, will subject the Contractor to the assessment of project liquidated damages in the amount(s) specified under the "Liquidated Damages" section of this proposal. These damages will be assessed continuously from the time of the expiration of the thirty (30) calendar day time limit until such time as **all** final "Punch List" items are completed to the satisfaction of the Commissioner.

LIQUIDATED DAMAGES

Failure of the Contractor to complete the Work under this Contract within the specified completion time will result in the incurrence by the City of additional construction and engineering costs, including but not limited to supervision and inspection, together with other tangible and intangible losses. Therefore, if any work will remain uncompleted after the time specified for the completion of the work or after any authorized extension of such stipulated time, the Contractor must pay to the City the sum listed below for each and every day that such work remains uncompleted, and such moneys must be paid as liquidated damages, not a penalty, to partially cover costs and losses by the City.

Completion of Milestones 1 and 1A:	\$500 per calendar day
Completion of Milestones 2 and 2A:	\$1,500 per calendar day
Completion of Milestones 3 :	\$25,000 lump sum per each uncompleted ¼ mile segment or fraction thereof
Completion of Preliminary Punch List:	\$1,000 per calendar day
Completion of Final Punch List:	\$1,500 per calendar day

The City will recover said liquidated damages by deducting the amount thereof out of any moneys due or that may become due, and if said moneys are insufficient to cover said damages, then the Contractor or the Surety must pay the amount due.

Nothing herein contained will be construed as limiting the right of the City to recover from the Contractor any and all amounts due or to become due, and any and all costs and expenses sustained by the City for improper performance hereunder, repudiation of the Contract by the Contractor, failure to perform or breach or breaches in any other respect, including but not limited to defective workmanship or materials.

The date for commencement of work will not be counted as a calendar day but each subsequent day thereafter from midnight to midnight will be counted as one calendar day and the last day counted will be the day on which the Contractor must have completed and the Commissioner will have accepted the entire work under this Contract.

UNIT PRICES

In accordance with the provisions of Book 1, XIII.G.1.a, unit prices will be used to determine the amount to ADD TO or DEDUCT FROM contract price for properly authorized additional or omitted work. Unit prices must be inclusive of the cost of materials, work, layout, drafting, balancing and testing, tools and sundries, overhead and profit, supervision and any and all other costs of whatsoever nature in connection therewith for work in place and accepted or omitted as the case may be. The calculation for determining the number of units of work must be actual surface, volume, length, hours and number of individual items listed for the class of work complete in place and accepted or omitted. No allowance for waste, loss, breakage, damage or difficulties shall be made.

Unit Schedule of Prices for all applicable materials related to the Work under this Contract must be inserted in the spaces provided, in this proposal.

SECTION TWO

REQUIREMENTS FOR BIDDING AND INSTRUCTIONS FOR BIDDERS

Contract for Work

Proposals are received by the Chief Procurement Officer of the City of Chicago in accordance with Contract Documents as set forth herein.

1. Examination by Bidder

The bidder must, before submitting its bid, carefully examine the proposal, plans, specifications, contract documents and bonds. The bidder must inspect in detail the site of the proposed work and become familiar with all of the local conditions affecting the contract and the detailed requirements of construction. If its bid is accepted, the bidder will be responsible for all errors in its proposal resulting from failure or neglect to comply with these instructions. The City will, in no case, be responsible for any change in anticipated profits resulting from such failure or neglect.

Unless otherwise provided in the Contract, when the plans or specifications include information pertaining to subsurface exploration, borings, test pits, and other preliminary investigation, such information represents only the opinion of the City as to the location, character, or quantity of the materials encountered and is only included for the convenience of the bidder. The City assumes no responsibility with respect to the sufficiency or accuracy of the information, and there is no guaranty, either expressed or implied, that the conditions indicated are representative of those existing throughout the work, or that unanticipated developments may not occur.

2. Bid Deposit

Bid deposit shall be required for all competitive sealed bidding for contracts when required in the legal advertisement. Bid deposit shall be a bond provided by a surety company authorized to do business in the State of Illinois, or the equivalent in cashiers check, money order or certified check. All certified checks must be drawn on a bank doing business in the United States, and shall be made payable to the order of the City of Chicago. CASH IS NOT AN ACCEPTABLE FORM OF BID DEPOSIT.

Bid deposits shall be in the amount shown in the advertisement or as may be prescribed herein, but not in excess of 10% of the bid. Should the amount of the bid deposit shown in the advertisement prove to be more than 10% of the bid, then the bidder may submit, in lieu of the foregoing, an amount equal to 10% of his bid. When the legal advertisement requires a deposit, noncompliance requires rejection of the bid. Compliance with the provisions herewith shall be determined in all cases by the Chief Procurement Officer and her determination shall be final.

After bids are opened, deposits shall be irrevocable for the period specified herein. If a bidder is permitted to withdraw its bid before award, no action shall be taken against the bidder or the bid deposit.

Requirements for Bidding and Instructions for Bidders

3. Preparation of Proposal

(O) To fail to comply with any requirement applicable to the contractor on a project as set forth in Article XIV of Chapter 11-4 of this Code.

4-36-120 Duties.

A licensee under this chapter shall have the following duties:

(A) To maintain a list that includes information about all permits obtained and all contractors or subcontractors performing work on any project permitted or requiring a permit, under this Code, including the contractor's or subcontractor's name and address, and if applicable, their license number. If requested by the commissioner, the general contractor shall produce this list within 72 hours of the commissioner's request.

(B) To maintain sufficient and proper personnel, financial ability and facility to coordinate, develop, provide management expertise and complete in its entirety any proposed work for which a permit has been issued or is required to be issued under this Code. If the commissioner of buildings or the department of business affairs and consumer protection receives a complaint, or otherwise has reasonable cause to believe, that a licensee or any person requiring a license under this chapter is not financially solvent, the commissioner and the department of business affairs and consumer protection are authorized to examine that licensee's or person's financial books and records in order to determine whether the person's past and current financial solvency and expectations for financial solvency in the future give rise to a reasonable expectation that the person can successfully do business as a general contractor without jeopardizing the public health, safety or welfare, and can carry through to completion any project permitted or requiring a permit under this Code. Financial solvency is a continuing requirement for maintaining a license under this chapter. Any financial books and records submitted pursuant to this subsection, and all information contained therein, shall be deemed confidential, shall be used for purposes of enforcing this subsection only, and shall not be divulged to any person or agency, except to the United States Attorney, the Illinois Attorney General, the State's Attorney of Cook County or to the extent required by law. Any person who uses or divulges confidential information in violation of the requirements of this subsection shall be subject to incarceration for a term not to exceed six months or a fine not to exceed \$500.00 or both.

(C) To assure compliance with the building code by its employees, agents and subcontractors in the performance of a project.

(D) To comply with all reasonable requests made by any authorized city official necessary or appropriate to implement the requirements of this chapter;

(E) To cooperate fully with any authorized city official in any inquiry, inspection or investigation necessary or appropriate to implement the requirements of this chapter;

(F) To keep a copy of the certificate of insurance required under Section 4-36-090 at the following locations: (1) the licensee's principal office or place of business, as identified in the license application; and (2) each construction site within the city managed or controlled by the licensee. Upon request, such copy of the certificate of insurance shall be made available for inspection by any city inspector or other authorized city official.

The duties set forth in this section shall apply to the licensee and to all controlling persons.

(G) If the licensee is engaged at a specific job site in the business of home repair, as defined in Section 4-6-280(a), to comply with the requirements set forth in paragraphs (2) through (6), inclusive, of Section 4-6-280(d) and in paragraphs (1) through (4), inclusive, of Section 4-6-280(c).

4-36-130 Permit privileges – Suspension for failure to correct defects in work.

If the commissioner of buildings determines that a licensee or any person requiring a license under this chapter has failed to correct any substantial defect, error or deficiency, or has established a pattern of deviating from the drawings or plans approved by the appropriate department issuing the permit, in any work done under the authority of a permit issued pursuant to this Code, the commissioner shall notify the licensee or person that if the noncompliance is not corrected to the satisfaction of the department within ten business days after written notification thereof, the issuance to the general contractor of any new permit for any work at any location shall be prohibited until the noncompliance is cured. If the general contractor fails to correct the noncompliance within ten business days after written notification thereof, the commissioner shall, without further notice, stop the issuance of any new permit to the general contractor until such time that the noncompliance is corrected and the correction is inspected and approved by the department.

For purposes of this section:

“Substantial defect, error or deficiency” means any construction, alteration, installation, repair or razing of any building, structure, premises or part thereof which (i) is being done or has been done without any permit required by this Code; or (ii) creates a danger to the health or safety of workers on the site, to current or eventual users or occupants of the building, structure, premises or part thereof, or to the general public.

“Pattern” means five or more uncorrected deviations from any permit at one or more construction sites within any six-month period.

4-36-140 License – Immediate suspension based upon a pattern of substantial code violations.

If the commissioner of buildings determines that a licensee is engaging in or has engaged in a pattern of substantial code violations, the commissioner may order the temporary suspension of any license issued pursuant to this chapter for a period not to exceed ten days. Notice of the temporary suspension and the grounds for that suspension shall be immediately sent or delivered to the licensee. The licensee shall have an opportunity for a hearing before the department of business affairs and consumer protection prior to the expiration of the ten day temporary suspension. If the department of business affairs and consumer protection determines by a preponderance of the evidence that a pattern of substantial code violations exists, nothing in this

section shall prevent the department of business affairs and consumer protection from suspending the licensee's general contractor license for a longer period of time or from revoking the license in accordance with Section 4-4-280 of this Code.

For purposes of this subsection, the term "pattern of substantial code violations" means five or more violations of the building code which imperil the public health, safety or welfare, or two or more violations of any stop work order issued pursuant to this Code, or any combination thereof involving five or more violations of this Code, within any six-month period, at one or more construction sites within the city managed or controlled by the licensee.

4-36-145 License suspension pending final adjudication of a bribery charge.

If the commissioner has knowledge that a licensee under this chapter or any controlling person has been indicted or charged with any offense set forth in item (L) of Section 4-36-110 or with a similar offense under any State or Federal law and the commissioner determines that continued operation of the licensed business or activity may pose a threat to the public health, safety or welfare or may threaten to impair public confidence in the licensed business or activity, the commissioner may suspend the general contractor license of such licensee, in accordance with the requirements of Section 4-4-280, until final adjudication is made with respect to such offense. The subject matter of any hearing conducted under Section 4-4-280 shall be limited to determining (1) whether the licensee or any controlling person has, in fact, been indicted or charged with any offense set forth in item (L) of Section 4-36-110 or with a similar offense under any State or Federal law; and (2) whether such offense is connected in any way with an act related to general contracting; and (3) whether continued operation of the licensed business or activity may pose a threat to the public health, safety or welfare or may threaten to impair public confidence in the licensed business or activity. The burden of proving that continued operation of the licensed business or activity does not pose a threat to the public health, safety or welfare and does not threaten to impair public confidence in the licensed business or activity shall be on the licensee.

4-36-150 License – Suspension or revocation.

Any violation of this chapter or of the building code or of any regulation promulgated thereunder may result in license suspension or revocation in accordance with the requirements Section 4-4-280 of this Code.

4-36-160 License revocation – Four-year wait for new license.

No person whose license under this chapter is revoked for any cause shall be granted another general contractor license under the same or a different name for a period of four years after the date of revocation.

4-36-170 Regulations.

The commissioner of buildings shall have the authority to promulgate rules and regulations necessary to implement the requirements of this chapter.

4-36-180 Enforcement.

The commissioner of buildings shall (i) enforce the requirements of this chapter; (ii) investigate complaints regarding violations of this chapter; and (iii) maintain a roster of all licensees under this chapter and of all persons whose general contractor license has been suspended or revoked within the previous four years.

(Added Coun. J. 10-1-03, p. 9163, § 2.1)

4-36-190 Violation – Penalty.

Except as otherwise provided in this chapter, any person violating any of the requirements of this chapter shall be fined, as follows:

RIDER TO CONTRACTOR'S PERFORMANCE AND PAYMENT BOND

This Rider supplements Contractor's Performance and Payment Bond ("Bond") on that certain contract with the City of Chicago ("City") bearing Contract No. _____ and Specification No. _____ ("Contract"). Surety acknowledges that the Contract requires Contractor to obtain from each of its subcontractors consent to a collateral assignment of their contracts with Contractor to the City. The Contract further grants the City the right, upon Contractor's default for failure to comply with Chapter 4-36 of the Municipal Code of the City, and at the City's sole option, to take over and complete the work to be performed by Contractor through the City's assumption of some or all of Contractor's subcontracts. If the City, in its sole discretion, exercises this right, then Surety waives any rights it may have to cure Contractor's default by performing the work itself or through others and remains bound by its other obligations under the Bond.

BIDDER WILL ACKNOWLEDGE RECEIPT OF THIS CLARIFICATION IN THE SPACE PROVIDED ON THE PROPOSAL PAGES

CLARIFICATION

Clarifications for Arterial Resurfacing Projects:

Project No. 80-CENTRAL Area (Specification No. 565254)

- Can you provide a Staging/MOT plan that will be acceptable to the City of Chicago permit office for all the work on LSD?

CDOT Response: The contractor should anticipate Lake Shore Drive to have staged construction per Detail Specifications Book 3 under Item 106 TRAFFIC CONTROL COMPLETE. Staging/MOT plans will be determined when permits are applied for.

- Will lane closures on LSD be allowed to remain up over night?

CDOT Response: The contractor should anticipate Lake Shore Drive to have staged construction per Detail Specifications Book 3 under Item 106 TRAFFIC CONTROL COMPLETE. Twenty-four hour lane closures for Lake Shore Drive will not be permitted.

- What will be the work hour restrictions that we should consider on the LSD segments?

CDOT Response: The contractor should anticipate Lake Shore Drive to have staged construction per Detail Specifications Book 3 under Item 106 TRAFFIC CONTROL COMPLETE. Work on Lake Shore Drive should be performed at non-peak travel hours.

- Are there any other construction projects or events that we should be aware of while developing pricing for the LSD work?

CDOT Response: All work performed on Lake Shore Drive must be coordinated with other construction projects and specials events with the permitting office.

- Plans show ADA ramps to be constructed at Randolph & LSD, Monroe & LSD. Thorium could be an issue. Can you identify the line items that will cover Thorium monitoring, delays, and disposal if necessary?

CDOT Response: Thorium monitoring and disposal work will be performed by the Department of Fleet and Facility Management with coordination with CDOT.

Spec. No: 565229, 565254, 565290 and 565313

Clarification No. 1

- If Thorium is deemed to be above allowable limits and area needs to be covered back up after removals of pavement or sidewalk, how would these efforts be compensated for?

CDOT Response: The Contractor will not be compensated since Department of Fleet and Facility Management will perform the Thorium monitoring and disposal work.

- There is a note on Sheet 9 that calls out a requirement that the contractor is to determine the thickness of the existing HMA surface prior to performing any work. Would one core in each direction be sufficient? Does this note also apply to the lower level and ramp work?

CDOT Response: Exact number of cores will be determined by Commissioner before construction begins. This note also applies to lower level and ramp work. The purpose of cores is to determine the thickness of pavement such that the bridge concrete deck will not be damaged during milling.

- In the AR-Central project plans, the typical sections on sheet 9 from Grand Ave to Randolph St. are labeled as Mainline and Ramp sections. Are all the areas on the lower level considered ramp or mainline?

CDOT Response: Consider the lower level areas as ramps.

- It is documented that a waterproof membrane exists on all the elevated structure, is the same true on the lower level work?

CDOT Response: The contractor should anticipate waterproof membrane for all elevated structures and lower level work.

- Do we need to close down the lower level roadways while milling on the upper level roadways since the bottom of the upper deck shows that material has fallen off in the past?

CDOT Response: Contractors shall anticipate lane closures for lower level roadways while milling on the upper level roadways.

- There are approximately 23 bridge joints in each direction of the upper level. The traffic count shows more than 100,000 cars per day. Is temporary ramping with cold patch an acceptable condition between the milling and paving operations if we need to open the roadway up to the public while work is not going on?

CDOT Response: Leveling binder hand method is an acceptable material for ramping at bridge joint locations.

- Will the contractor need to take over maintenance of the surveillance and detector loops on LSD until accepted back by IDOT?

CDOT Response: Yes. See Detail Specifications Book 3 under Item 114 INDUCTION LOOP and Item 115 ELECTRICAL CABLE IN CONDUIT, 4C/NO. 18 SHIELDED LOOP LEAD-IN.

- The Table Summary of quantities indicates 3 Catch basins being installed on 3 different streets. The plan sheets are not showing where they are to be installed. Can you provide more information where the catch basins will be required?

CDOT Response: Catch basins will be installed at locations as directed by the Commissioner.

- Since there are not any sewer connection types of line items can we assume we are tying into existing sewer laterals? If not and we are tying into the main, what is the depth of the main?

CDOT Response: Field conditions may vary. Catch basins may be installed at locations in order to maintain curb flow. Connections to existing laterals or the main lines will be installed at locations as directed by the Commissioner.
